EDUCATION

Christ University

Bachelor of Business Administration, Finance, GPA: 3.57/4

Courses - Statistics, Data Analytics, Business Analytics, Financial Modeling, Econometrics

Bengaluru, India

Aug 2022-Jun 2025

EXPERIENCE

D.E. Shaw

Research Associate

Hyderabad, India

June 2025-Present

- Analyzed quarterly SEC 13F filings across 33–40 institutional funds, structuring holdings data in Power BI to identify new and exited positions and track changes in position sizes across quarters.
- Automated daily intelligence tracking across LinkedIn, Reddit, and other sources using Python, Claude, and Cursor, reducing monitoring time by 75%, from 2 hours to 30 minutes per day.
- Standardized and analyzed 15 years of emerging-markets turnover data to compare liquidity and trading activity across countries and exchanges, creating a consistent benchmark for evaluating market activity over time.
- Developed a recurring investment analytics database and dashboard from 10+ years of DRHP data across 60+ sub-\$100M companies, standardizing financial metrics to benchmark firms and screen companies by industry and profitability criteria.
- Engineered an event-driven email-to-database pipeline for 4%/5% shareholding disclosures, automating notification parsing, field extraction, and database updates; reduced processing time from 30–40 minutes to 2–3 minutes per disclosure.

Groww

Customer Analyst Intern

Bengaluru, India

May 2024-Jul 2024

- Diagnosed KYC delays across 5,000+ stock-trading and F&O activation queries by identifying document and verification bottlenecks, informing workflow changes that reduced activation time by 20%.
- Identified escalation drivers from chatbot and customer-query patterns, standardized response templates and resolution steps, and reduced customer escalations by 20%.

Mensa Brands (Now BRND.ME)

Growth Analyst Intern

Bengaluru, India

June 2023-Aug 2023

- Optimized Amazon advertising using Amazon Ads and Helium 10 by adjusting bids and reallocating spend across a 40–60 product portfolio, doubling sales across 80% of products while reducing ad spend by 40%.
- Analyzed 300+ competing products across 5–6 gardening brands using Helium 10 to identify high-search keywords competitors were underusing, informing listing optimization and new product positioning.

SKILL PROFICIENCY

- Programming & Databases:** Python, SQL, MySQL
- Data Analytics & Visualization:** Power BI, Tableau, Advanced Excel, Jamovi
- Analytics:** Statistical Analysis, Regression Analysis, Time Series Analysis, Dashboard Development
- Automation & AI:** Workflow Automation, Data Extraction, Process Optimization, Claude, Cursor.

PROJECTS

Algorithmic Fairness & Rider Performance Analysis | Python · Regression Analysis · Data Visualization

Reverse-engineered rider performance scoring across 15,000 delivery records with 99.9% model fit, quantifying how traffic, weather, and experience shaped scores; developed a condition-adjusted Fair Score framework to separate rider performance from circumstances and support more equitable evaluation.

April 2026

Python-SQL Test Generator | Python, SQL

Built a Python–MySQL assessment application with a 500+ question database across 5 difficulty levels, designing the relational schema and automating question retrieval, scoring, and result storage.

Jan 2025

Gender-Based Healthcare Expenditure Analysis | Jamovi · Regression Analysis · Statistical Analysis

Analyzed gender differences in consumer healthcare expenditure using Jamovi, regression, and statistical analysis, testing demographic, financial, and need-based drivers of spending; developed a model explaining 63.1% of expenditure variation to identify the factors most strongly associated with spending behavior across genders

Feb 2025

ACTIVITIES AND LEADERSHIP

Youth for Parivarthan | Community Volunteer | 2023

Volunteered 250+ hours across 15 Bengaluru neighbourhoods through public-space restoration, wall-art projects, educational outreach, and distribution of 600+ meals to underserved communities.

Team Snappers | Associate Head | 2022-2025

Led 30+ photography shoots across School of Business & Management events, coordinating teams, event coverage, and resource allocation; reduced expenses by 20% and improved project turnaround time by 40%.

Team Dhadak | Dance Coordinator | 2022-2025

Led a 12-member inter-college dance team across 7+ performances, redesigning auditions, team selection, and resource planning to increase participation by 60% and reduce event costs by 30%.

Drishti Art Centre | Bharatnatyam | 2009-Present

Completed 10+ years of formal Bharatanatyam training under Ms. Anuradha Vikranth, earning the Vidwat degree.
